

DYNO[®]-MILL

WAB

ECO 5 Agitator Bead Mill

The DYNO-Mill Eco 5 used for continuous dispersion and wet fine grinding of solids in a liquid phase from **CB Mills**. The ECO 5 drive features explosion-proof controls with a 3-phase, 230/460 volt service, and a single mechanical seal. The ECO 5 is perfect for small batches and a great introduction for the first-time horizontal mill buyer.

Features:

- Production Capacity: 44-440 Lbs/Hr
W/ 5.0 Liter Volume
- Water-Jacketed Grinding Container:
W/ Exchangeable Inner Cylinder
